

FORCE FIELD ANALYSIS FORM for STOKING THE FIRE: “Does Truth Prosper? (Why or Why Not?)”

Rank the factors FOR and AGAINST the proposed change with scores of 1 to 5 indicating the strength with which each factor will support or limit the proposal (1= very little effect and 5= very strong). If the score FOR the initiative is greater than that AGAINST, the change is worth pursuing. If the reverse is true then the initiative may need to be adjusted / reworked or a plan could be developed to counter the negative factors.

Factors FOR Change	Preparation required	Score	Change Proposal	Score	Factors AGAINST Change
